Laurie, here an approximate list of things we will touch on, after Jeff undoubtedly opens with some reminders about EPA's trust responsibility to Squaxin.

1. Oakland Bay TMDL
 - A. 14/43 water quality standard for tributary mouths--should be primary, not secondary goal
 - B. DOT involvement in TMDL implementation
 - C. Enforcement
2. Deschutes TMDL
 - A. Timeline way too slow
 - B. TMDL settlement status
3. Washington CWA Triennial Review (more of an FYI of our expectations)
 - A. Fish consumption rate
 - B. Marine designated uses

Let me know if you have questions. John K.
